THE 7TH CONGRESSIONAL DISTRICT.-The following paragraph is cut from the Richmond correspondence of the Petersburg Courier: The moderate Republicans are going to at-

tempt the policy which proved so successful with the Conservatives last year. As the Conservatives ran Conservative Republicans, so are the Republicans now to run Republican Conservatives-that is, if the Porter wing of the party will allow it. In the State Journal yesterday afternoon, a writer nominates James B. Sener, Esq., of Fredericksburg, as a Republican candidate for Congress in the 7th dis-

Mr. Sener is without any doubt the mos promising of the young Republicans here, and he is in every way worthy of the highest honor his party, in the district, can confer. He has ability and energy, has attained distinction in his profession, and, above all, has made money. which, in these latter days, is the best recommendation a man can have.

The Republicans of the district, says the correspondent, will adopt the policy which the Conservatives found successful, and will run Mr. Sener as a Republican-Conservative. It is right to be taught by an enemy; but we can never hear these terms which indicate a want of decision about parties, without being re-minded of the anecdote of the Democrat and an old Maryland farmer. The Democrat was canvassing his county, and in his travels came on the old farmer's house, and, being in doubt about the old man's politics, he concluded to give him an ambiguous answer when his own were asked for, and so when the old man in quired to learn what party he belonged to, he replied that he was a Democrat Republican .-"Well," replied the old man, "I like turkey very well, but d-d if I can stand turkey- buz-

We have no idea that Mr. Sener will be a candidate under any such ambiguous name. -Fredericksburg Star.

CLAUGHTON, esq., is presented to the voters of the Seventh Congressional District of Virginia as a suitable candidate to represent the said District in the next Congress. Improved in QUALITY AND CONDITION.
The quality of this Guano is materially improved this season by the addition to its composition of a large per cent of the SALTS OF POTASH.

It is improved in condition by being brought into market sufficiently dry and uniformly fine to pass with facility and regularity through the orifices of the
